### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 59-61 are allowed.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In the abstract, filed 14 April 2005, line 1, ""An object of the present invention is to provide a" was deleted, and -- A -- was inserted. In line 3, immediately after "periodicity", "." was deleted, and -- are provided.-- was inserted.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moroki et al. (US Publication no. 2006/0047210) describes a portable device for processing electrocardiographs. The portable device contains a display for displaying a scrolling electrocardiograph signal. Steps are described by Moroki et al. for correcting the electrocardiograph signal in the event noise causes a baseline drift unacceptable for signal analysis, para 68-71. This reference is considered relevant to the subject matter of the claimed invention, and a rejection under said

reference has been considered against the pending claims. The publication date of Moroki et al. disqualifies it as a prior art reference.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian T. Gedeon whose telephone number is (571) 272-3447. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl H. Layno can be reached on (571) 272-4949. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
